

1095-C

Employers are required to issue a 1095-C to all employees who are eligible. A 1095-C provides information on your employer-provided health insurance offer and coverage. Your 1095-C will be distributed by SetSeg (they do our ACA reporting) prior to March 4, 2020. Employees will want to put this form with their tax information. You do not need to do anything with the form on your taxes.
