October 19, 2020

Dear Bulldog Family,

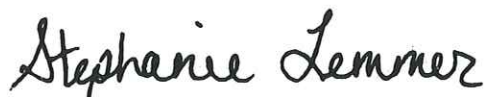

We were informed on Sunday that a junior high football player from Cassopolis has tested positive for COVID-19. Our junior high team played Cassopolis on October 14. With the guidance of the health department, 17 students from our junior high football team will be quarantined for 14 days. (There were several students on the team who did not enter the game, and therefore will not be quarantined.) **At this point, no student from our team or school has tested positive.**

We have notified the impacted players from our team, and will continue to work closely with our local health department throughout the quarantine period. We have thoroughly prepared for multiple scenarios, and are ready to take the necessary steps for the safety and health concerns of our students, staff, and community, while meeting the recommendations of the Center for Disease Control and our local health department.

Please remember that the safety of our students and staff will always be our number one priority. We will continue to communicate with you, and operate using all of our processes to mitigate the impact of COVID-19.

Please do not hesitate to contact me if you have any further questions or concerns.

Sincerely,

Stephanie Lemmer  
Superintendent
