January 21, 2021

Dear Centreville Public Schools Staff and Families:

This letter is to notify you that we currently have 11 confirmed positive COVID-19 cases within the district. Upon hearing of each confirmed case, administration immediately implemented our contact tracing plan to identify people who were in direct contact with these individuals. Direct contact is defined as being within six feet of a person with a confirmed case for more than fifteen minutes.

We have consulted with the local health department regarding the identification of close contacts. Contact tracing is the key to quickly identifying and isolating those people affected so we can safely continue to hold in-person classes. Parents of the students, and staff that have been in close contact with COVID-19 individuals, have been notified that they must quarantine at home for 10 days to watch for symptoms.

We have thoroughly prepared for multiple scenarios and are ready to take the necessary steps for the safety and health concerns of our students, staff, and community, while meeting the recommendations of the Center for Disease Control and our local health department.

We will continue to be diligent in all our efforts to keep students and staff safe while keeping our schools open for in-person instruction. The safety measures include daily health checks; required facial coverings; social distancing, when possible; frequent handwashing; sanitizing and disinfecting common touch areas; and daily facility/bus cleaning and disinfecting.

This notification has also been posted on our district website at www.cpschools.org. You will also find our district dashboard on our website. The district dashboard is updated daily with information about the number of staff and students quarantined. Your support is greatly appreciated as we work through each response.

Please feel free to call your building office if you have any questions.

Sincerely,

Stephanie Lemmer
Superintendent
